## Standard Size labels in Australia - Why Not?

There is much discussion in our industry calling for a national sizing standard, but for some reason the "powers that be" just can't make it happen here in Australia. It's so frustrating for our customers. They can be a size 14 in one store and a size 16 in another store. Everyone is so confused. People will often ask us why sizing is not standardized? We try and get answers from our suppliers and we ask them to look at this issue. We can see a slight improvement with some suppliers, but certainly not all.

So much of the clothing in Australia now comes from overseas and even in our own shop, items coming out of the Chinese factories can vary by 2 sizes compared to

garments that are made here. So it's always important for customers to try on any items that need to be ordered, particularly if they haven't had uniforms before. We have some wonderful staff at Marino Uniforms to help with sizing and we can get size ranges in for fit outs on company sites as well. We will always do our best to try and assist you. And remember when it comes to trying on garments....*"keep calm and carry on"*.

Marino Uniforms is South Australian Owned and Operated. Thank you for supporting local business.
